

**Terri A. Kuchulis**

*Certified Public Accountant*

## Profile

I am a results-oriented financial executive with over 25 years of measured success in both public accounting and private industry.

*I have a reputation for being forward-thinking and for understanding the issues facing businesses, enabling me to provide the expertise clients need to achieve their short-term and long-range objectives. I take great pride in giving you personal assistance that comes from years of financial acumen and professional experience.*

I began my career in public accounting in 1990 with a focus on providing full-service accounting, auditing, and tax solutions to a wide variety of business clients and industries. I had the pleasure of working for one of the largest regional accounting firms. In addition to many years in public accounting, I spent thirteen years in private industry in executive financial leadership roles. The basis of my consulting services comes from these roles in which I contributed to business performance improvement and strategy refinement.

Over the years, I have also shared my expertise by presenting at several international conferences and participating as an active member on several Boards of Directors within the community.

Exploring how your company can benefit is easy - call or email me now to arrange a time to discuss your business needs.
