Taxes

Preparing your own income tax return can be a task that leaves you with more questions than answers. Most taxpayers believe they benefit from using a professional tax preparer, a belief I am committed to realizing for my clients.

Whether we like it or not, today's tax laws are so complicated that filing a relatively simple return can be confusing. It is just too easy to overlook deductions and credits to which you are entitled. Even if you use a computer software program, there's no substitute for the assistance of an experienced professional.

Here's what you get...

- Your tax return will be checked and rechecked by my computer software, identifying potential problems the IRS may look at more closely and reviewing the math to limit IRS contacts.
- Your tax return can be filed electronically so you will get a refund quicker.
- I will show you how to adjust your payroll withholding to get more money back each week. Why give the IRS an interest-free loan for up to 16 months.
- I will show you potential deductions to limit your tax liability for next year.
- I will provide advice on how to run your business throughout the year to reduce tax obligations.

Books a Mess: No Problem!

If you own a small business and haven't kept up your bookkeeping, don't worry. I can help you. I'll prepare your bookkeeping for the year, prepare your business tax return, as well as your personal income tax return. Then I'll help you set up an easy system that allows you to keep your books in tip-top shape next year.

Exploring how your company can benefit is easy - call or email me now to arrange a time to discuss your business needs.
